

# ER Forum 2017

Conceptual Modeling: Research in Progress  
6-9 November 2017, Valencia, Spain

The **ER 2017 Forum** aims to create a platform for presenting and discussing novel research ideas addressing any of the ER 2017 conference topics as well as new emerging topics related to the conceptual modeling field. In this track, innovation prevails over maturity. The main goal of the **ER Forum 2017** is to facilitate the interaction, discussion and exchange of ideas among presenters and participants.

## IMPORTANT DATES

**Deadline for submissions:** August 21, 2017  
**Notification of acceptance:** September 8, 2017  
**Camera-ready deadline:** September 22, 2017

*Deadlines correspond to anywhere on earth ('AoE', 'UTC-12').*

## FORUM CHAIRS

**Cristina Cabanillas**

Vienna University of Economics and Business, Austria

**Sergio España**

Utrecht University, Netherlands

## AUTHOR GUIDELINES

The rules for ER Forum paper submission are similar to those for the ER 2017 conference. Therefore, we invite two types of submissions: **Full papers** with a limit of 14 pages, and **short papers** with a limit of 8 pages.

The papers must adhere to Springer's LNCS submission formatting guidelines (for details see <http://www.springer.de/comp/lncs/authors.html>). Manuscripts not submitted in the LNCS style or exceeding the page limit will not be reviewed and hence, they will be automatically rejected.

A paper submitted to ER 2017 Forum must not be under review in any other conference or journal during the time it is being considered for ER 2017 Forum. The submissions are due in PDF format through the ER 2017 submission system hosted by EasyChair at <https://easychair.org/conferences/?conf=er2017>

## PUBLICATION AND PRESENTATION

All submissions will be reviewed by an international program committee. The **volume of accepted ER 2017 Forum** papers shall be submitted to **CEUR-WS.org** for online publication with the same submission format.

In order to propel discussion and feedback opportunities instead of the usual paper presentation session, the ER 2017 Forum papers will be presented in a "**World-Café**" setting initiated by a short elevator speech by each author. Therefore, physical presence of at least one presenter for each ER 2017 Forum paper is mandatory.

## PROGRAM COMMITTEE (tentative)

Heinrich C. Mayr, Alpen-Adia Universität, Austria  
Giancarlo Guizzardi, UFES, Brazil  
Hui Ma, Victoria University of Wellington, New Zealand  
Oscar Pastor, Universidad Politècnica de Valencia, Spain  
Fabiano Dalpiaz, Utrecht University, Netherlands  
Beatriz Marín, Universidad Diego Portales, Chile  
Giovanni Giachetti, Universidad Andres Bello, Chile

Raian Ali, Bournemouth University, UK  
Sagar Sen, Simula Research Laboratory, Norway  
Dolors Costal, Universitat Politècnica de Catalunya, Spain  
Ravi Ramdoyal, CETIC, Belgium  
Kurt Sandkuhl, University of Rostock, Germany  
Martin Henkel, Stockholm University, Sweden
