

ER Demos 2017

Conceptual Modeling: Research in Progress
6-9 November 2017, Valencia, Spain

The **ER Demos 2017** are intended to showcase innovative tools and applications for developing, communicating and implementing conceptual models. The tools may originate from research initiatives or from industry. Therefore, the **ER Demos 2017** will provide an opportunity to present and discuss emerging methods and technologies with researchers and practitioners in the field of conceptual modeling.

IMPORTANT DATES

Deadline for submissions: August 21, 2017
Notification of acceptance: September 8, 2017
Camera-ready deadline: September 22, 2017

Deadlines correspond to anywhere on earth ('AoE', 'UTC-12').

FORUM CHAIRS

Cristina Cabanillas

Vienna University of Economics and Business, Austria

Sergio España

Utrecht University, Netherlands

AUTHOR GUIDELINES

The demo papers must present original, novel tools or a significant extension of previously demonstrated tools. In the latter case, there must be clear evidence of the value added to the previous version of the tool. Besides a proper description of the functionalities of the tool, the papers should comprise the following sections, (for details see <http://er2017.pros.webs.upv.es/demos-2017/>): title, authors and affiliation; abstract; significance to the conceptual modeling field; maturity; screencast; a link to a website where to find the tool, in case.

Demo papers are limited to 4 pages and must adhere to Springer's LNCS submission formatting guidelines (see <http://www.springer.de/comp/lncs/authors.html>), otherwise they will be automatically rejected.

A tool submitted to **ER Demos 2017** must not be under review in any other conference or journal during the time it is being considered for ER Demos 2017. The submissions are due in PDF format through the **ER Demos 2017** submission system at EasyChair: <https://easychair.org/conferences/?conf=er2017>.

PUBLICATION AND PRESENTATION

All demo submissions will be reviewed by an international program committee. The **volume of accepted ER Demos 2017** papers shall be submitted to **CEUR-WS.org** for online publication.

Each tool will be advertised plenary using a one-minute teaser in a short session. The actual demonstrations will be held in a "**World-Café**" setting with all tools being shown in parallel so that the audience can freely walk from demo to demo. Physical presence of at least one presenter for each demo is thus mandatory. The reviewing committee and the track audience will vote on the best demo to be granted the **ER Best Demo Award 2017**.

PROGRAM COMMITTEE (to be confirmed)

Raian Ali, Bournemouth University, UK
Başak Aydemir, Utrecht University, Netherlands
Nelly Condori-Fernández, VU Amsterdam, Netherlands
Giovanni Giachetti, Universidad Andres Bello, Chile
Giancarlo Guizzardi, UFES, Brazil
Martin Henkel, Stockholm University, Sweden
Alessia Knauss, Chalmers University of Technology, Sweden
Hasan Koç, University of Rockstock, Germany
Hui Ma, Victoria University of Wellington, New Zealand
Beatriz Marín, Universidad Diego Portales, Chile
Patricia Martín-Rodilla, CSIC, Spain
Heinrich C. Mayr, Alpen-Adia Universität, Austria

Genaína Nunes Rogrigues, University of Brasilia, Brazil
Oscar Pastor, Universidad Politécnica de Valencia, Spain
Carme Quer, Universitat Politècnica de Catalunya, Spain
Ravi Ramdoyal, CETIC, Belgium
Manuel Resinas, University of Seville, Spain
Marcela Ruiz, Utrecht University, Netherlands
Kurt Sandkuhl, University of Rostock, Germany
Flávia Santoro, UNIRIO, Brazil
Sagar Sen, Simula Research Laboratory, Norway
Jose Luis de la Vara, Carlos III University of Madrid, Spain
Manuel Wimmer, TU Vienna, Austria
Iyad Zikra, University of Stockholm, Sweden
